

Beira Agricultural Growth Corridor

Delivering the Potential

UK-Mozambique Investment Forum, 2010

Mango nursery,
Dombe, Mozambique

Agricultural Growth Corridors

Major opportunities for profitable investment in agricultural growth corridors in Africa

Ghana agricultural growth corridor

(Under development)

Public private partnerships supported by catalytic funding from donors

Southern Agricultural Growth Corridor of Tanzania (SAGCOT)

Beira Agricultural Growth Corridor of Mozambique (BAGC)

BAGC agricultural and investment potential

- Launched at World Economic Forum and Maputo in early 2010
- Potential for 200,00ha of profitable irrigated agriculture
- Investment opportunity **\$1.7 billion** over 20 years
- **Catalytic funding** from government and donors to kick-start private investment
- BAGC Catalytic Fund launched
- BAGC Partnership between CepAgri, private sector and donors established

*“Temos a plena convicção de que, a iniciativa de desenvolvimento da Agricultura no Corredor da Beira, constitui uma grande oportunidade para promovermos um novo modelo de desenvolvimento da agricultura em Moçambique” (Soares Nhaca, Minister of Agriculture, July 2010)**

**“We firmly believe that the initiative for development of Agriculture in the Beira Corridor, is a great opportunity for promoting a new model of agricultural development in Mozambique”*

Investment opportunities in BAGC

Phoenix Seeds: nucleus farm hub and outgrower scheme for improved seed varieties (e.g. maize, pulses)

CF

Mozambique Honey: high quality honey production for export market by >5,000 smallholder farmers

CF

Maize

Commercialisation: maize collection, storage and marketing offering higher incomes for smallholder farmers

Agro-Energias: Irrigated poultry feed-stock production with contracted outgrowers, substituting for large imports of maize and soya

Dombe Mangoes:

smallholder outgrower schemes to produce and package high quality mangoes for export

CF

Goats: livestock business introducing new breeds and sourcing from smallholder farmers for local and regional market

CF

Citrus: opportunity to re-launch the citrus industry in central Mozambique, incorporating emergent farmers (requires “patient capital”)

Bananas (Manica):

Commercial and smallholder production of bananas including a pack house serving regional and middle eastern markets

CF

Irrigated farm blocks:

develop irrigated plots for lease to farmers for mixed crop farming, as a public-private partnership

“Impact investments” = profit + social development
